- + COMICS
- + SAINT PATRICK'S DAY
- + Pictionary

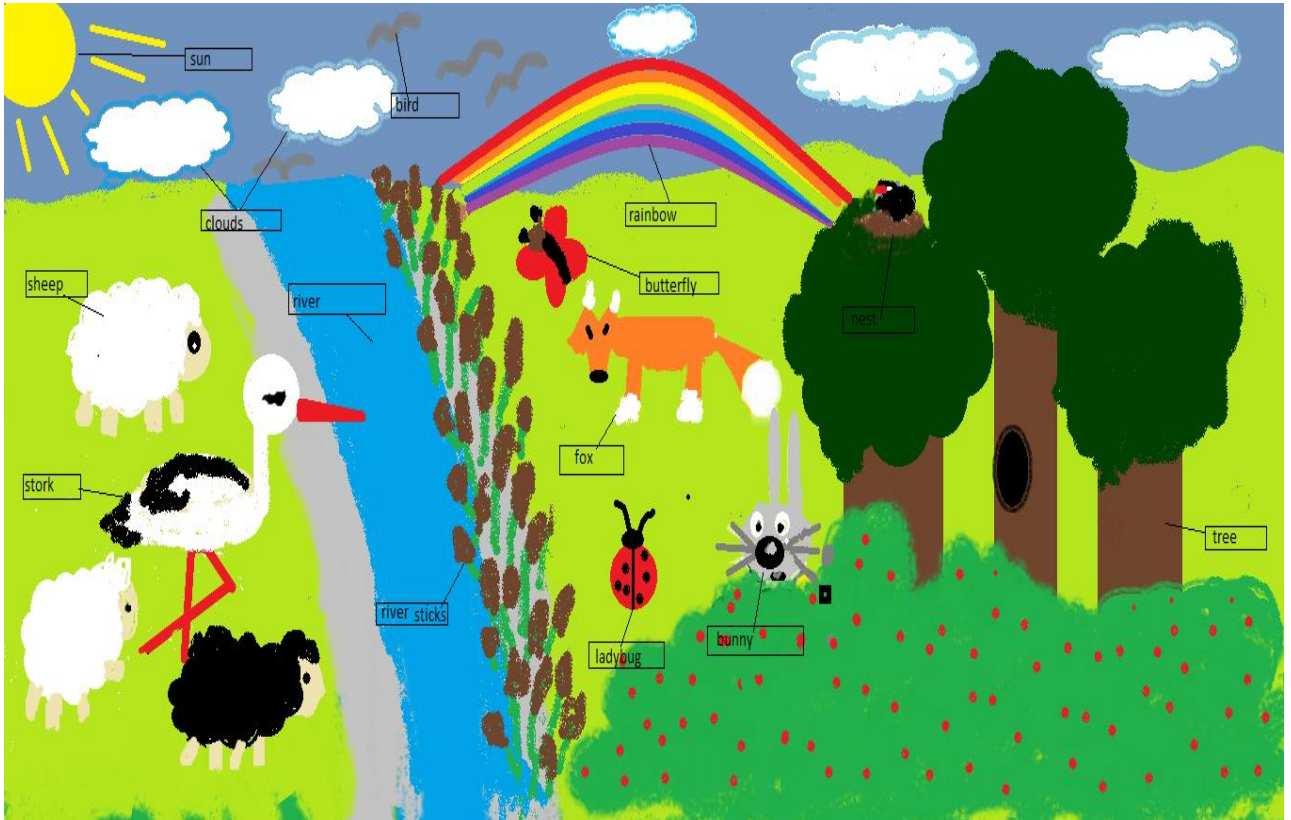

## SAINT PATRICK'S DAY

St. Patrick's Day, which we celebrate on March 17, is not only the national holiday of Ireland, but also one of the most celebrated holidays in the world. On this day parades, events and concerts are organized and toasts to the patron of the Green Island are raised. As an interesting fact, it should be noted that on this day in Chicago the river is coloured green.

# FUN CORNER – SAINT VALENTINE'S DAY

I felt the urge to put my feelings in writing The thought of not being with you is frightening You are my eternal sunshine Especially for you I created this rhyme I would rather have you than a million bucks Or than a mansion no matter how deluxe I am not sure you will like my poem Know at least that my love for you is set in stone Being with you makes everything else so futile I have been feeling like a sigh I hope we make it I hope it will be fast I hope the moment we part I have to deeply like this for quite a while My love is so strong, it makes me fly Each time we part I have been feeling like a sigh I hope we make it I feel life does not matter Without you, I look forward to our next moment together forever lasts I hope we make it I look forward to our next moment together forever lasts I hope we make it I look forward to our next moment together forever lasts I hope we make it
